How to Create a Profile (Account)

Every company user regardless of their role can have his/her own DDx account. To register and create a DDx account/profile, follow steps below.

Step-by-step guide

1. Go to the DDx homepage, click here.
2. In the "Create a Profile" section enter your: first name, last name, email, password, confirm password in the designated fields.
3. Click "profile profile".
